

A JOURNEYMAN TAKES THE ROAD LESS TRAVELED

# BUGGY WHIP WHEAT WHISKEY

A single-grain whiskey, showcasing the terroir of locally-grown organic wheat and producing a soft, sweet smoothness reminiscent of an Irish whiskey. Buggy Whip is named for one of the products produced at the historic Featherbone factory in the late 1800's. The factory's owner, E.K. Warren, was a staunch businessman who revolutionized the production of corsets and buggy whips. He set the precedent of hard work, innovation, and adventurous spirit. We salute E.K. for his willingness to take risks, and we honor his adventure with our Buggy Whip Organic Wheat Whiskey.
